

10TH FINANCE LEADERS SUMMIT 2020

NATUREO FINANCE wins in the Investment Banking and Financing Category for the Energy - Infrastructure - Transport sectors.

A PROPOS DE NATUREO FINANCE

NATUREO FINANCE was founded in 2008. It is an independent advisory firm for mergers & acquisitions and fundraising specialised in the energy and ecological transition sectors. NATUREO FINANCE brings industrial sectorial and financial expertise to innovative technology companies so they can face the growth challenge in an international environment.

Their three-tier expertise is particularly relevant in the fields of renewable energy infrastructures, and in supporting industrial companies in the transport, energy storage and hydrogen production sectors.

Paris, the 5th of February 2021 - In Paris on the 20th of January 2021, NATUREO FINANCE was designated the 2020 award winner in the Investment Banking and Financing category for the energy - infrastructure - transport sectors at the 10th edition of the Finance Leaders Summit organised by the Leaders League group (publisher of the Décideurs magazine).

NATUREO FINANCE was competing in the Investment Banking and Financing category for the energy - infrastructure - transport sectors along with the Bank of America, HSBC, Linkers and Société Générale CIB.

NATUREO FINANCE has been rewarded for their energy storage and infratech expertise as well as their deep sectoral knowledge and financial mastery.

This 10th edition of the Finance Leaders Summit, was a result of the merger between the G20 Strategy and Management Summit – finance edition and the Leaders of Finance Trophies. It united 900 major players in corporate finance.

Christophe Rouvière stated: *"We welcome this award which is a symbol of professional recognition, but it also reflects the devoted work of the entire NATUREO FINANCE team which has now been active in energy transition sectors for over ten years. NATUREO FINANCE is continuing to accelerate its development through hydrogen in the transport sector and the associated infrastructure networks."*
